burg; British Cruiser Shells Town.

By Associated Press.
PARIS, Nov. 3.—A bombardment
of France in Belgium, 26 miles south-
west of Ypres, where the British held
the line. This is taken to indicate the
intention of another way to reach
Calais.

While the shells of the German
guns apparently directed against the
railroad station, were exploding the
president, king and war minister were
in the neighborhood of the hotel de
ville. There, to the strains of the
Marseillaise and the national anthems,
the soldiers of France and Belgium passed
by.

All the men displayed the greatest
calmness. Later President Poincaré,
prime minister Millerand and General
Joffre met about 100,000 British
troops, to whom the president expressed
his warmest wishes on behalf of
France.

Before the review President Poincaré
and his party paid their respects
to Queen Elizabeth of Belgium at the
royal residence.

On leaving the president passed
the afternoon around the French
troops operating around Ypres. Presi-
dent Poincaré was in Dunkirk Mon-
day evening where he saw Lord
Curzon and Premier D'Almeida of
Belgium.

**GERMANS ABANDON LEFT
BANK OF RIVER YSER**

By Associated Press.
PARIS, Nov. 3.—The French of-
ficial announcement given this
afternoon says the Germans appear
to have completely abandoned the left
bank of the Yser below Dixmude and
that troops of the allies have taken
possession of the left bank of the
river. The communication follows:

"On our left the enemy seems to
have abandoned the left bank of the
Yser down stream from Dixmude and
recommenced the attack on the right
bank of the river. The allies have
undertaken on the highways in the
immediate regions were successful in
completing points of passage across
the river without great difficulty. To
the south of Dixmude in the direction
of Perwez our advance was particu-
larly perceptible.

"In the region to the north of the
Yser, in spite of determined attacks
by the Germans in great force our
front was maintained on re-established
to the end of the day. Fresh at-
tacks by the Germans on the eastern
of Ypres and against Lihore and
Lommeveuve-Santerre, resulted in
failure. In the center in the region
of the Yser and in the direction of
the east of Ypres, we have made some
progress.

"In the east of Ypres, according to
the latest news, those of our troops
who held positions in the places of
the front line by the north of the
Yser, of Chateau and Soupe, have
been completely driven back into the
east of this location. We main-
tain our position at Namur, on the
right bank of the river.

"There was heavy cannonading
during the day between them and
the Allies and on the heights of the
Mont. Further efforts on the part
of the Germans in the direction of
Ypres were checked. We have con-
tinued to make progress to the north
of Dixmude. On our right, our
troops have been successful in driving
the enemy back to the river.

**CONFLUENCE BOY
SHOTS MOTHER;
HUNTING TRAGEDY****While Cleaning Shotgun the
Weapon Accidentally
Goes Off.****SHE DIES IN A FEW MINUTES**

YOUTH Is Grieved With Grief and Is
Feared He May Lose His Reason as
a Result of His Deed; Shots Enter
Heart of Mrs. E. O. Rederick.

While cleaning his shotgun in the
kitchen of their home, Whislow Rederick,
aged 17, accidentally shot and
killed his mother, Mrs. E. O. Rederick,
who was about 55. The accident
occurred yesterday at Confluence.

Mrs. Rederick was washing at the
time. She had started from the stove
to the wash boiler when the weapon
exploded. The shot struck her in the
left side, taking an upward course and
penetrating the heart. She died about
four minutes after being shot.

The lad has been crying with grief
since the tragedy. In some manner
the gun went off. There was a crash
as the shell exploded, and a heavy
fall as the mother dropped to the
floor. Neighbors and physicians were
summoned, but the woman was dead
before they arrived. The lad is cre-
dited with grief and neighbors fear
he will lose his reason.

Mrs. Rederick leaves her husband
and six children. They are Elizabeth,
aged 14, and five others. The family
lives in Confluence, Mrs. Maud
Stewart of Pittsburg, and Mrs. Ralph
Bailey of Penn Station. She was a
member of the Christian Church. The
funeral will probably be held to-mor-
row.

Bull Moosemen Say Pinchot and Mc-

Confident, But Come to the Point
With Prediction That Palmer Leads.

Special to The Courier.
PITTSBURGH, Nov. 3.—A
sweeping victory for the Republican
candidates in the Pennsylvania cam-
paign was predicted last night by
Republican managers. Republican State
Chairman Crow and Senator Pen-
rose issued statements forecasting an
overwhelming victory. Senator Pen-
rose said:

"Conservatism will show a Republi-
can majority for the whole state
next year. At this time I do not
concede any congressional district as
surely Democratic. This is a Republi-
can year.

"The whole ticket will be elected by
an overwhelming majority. Spaulding
roughly, the ticket will have a
majority of 100,000 in Philadelphia
alone and the whole state ticket will
come in the Philadelphia county line
with a majority approximating 100,000.
I confidently expect to poll a
majority of more than 100,000."

Republican State Chairman Wil-
liam E. Crow said:

"The Republicans will get 27 con-
gressmen by 183,000 to 220,000,
and will carry at least 19 counties.
Senator Penrose will carry 44 con-
gresses and will have a majority of 184,000
over Palmer, who Pinchot runs
a poor third. All of the other
Republican candidates will win with-
out difficulty, as there will be more

PIG IRON PRICES REACH THE LOWEST LEVEL IN 10 YEARS

Decline Since October 1 Responsible for Unenviable Record.

MARK OF 1912 IS SURPASSED

Apart from 1904 the prices now being asked for pig iron are the lowest since 1899. When Chicago Mining Costs Reached, Cost of Coke is Highest Now.

There has been a new record in the price of pig iron. It has fallen to a point not reached since 1899. The decline is the result of a combination of factors, the most important of which is the unusually low cost of coke. The price of pig iron has fallen from \$12.00 per ton in October, 1910, to \$10.00 per ton today. This is the lowest price since 1899, when it was \$10.00 per ton. The price of pig iron has been steadily declining since October, 1910, and is now at its lowest point in ten years.

YOU MAKE FRIENDS BY RECOMMENDING A RELIABLE KIDNEY MEDICINE

Your representative called at my door yesterday morning, to leave a sample of your noted Swamp-foot and I am certainly pleased to see anybody connected with the firm who makes a medicine which has done so much for me and my family. A few years ago I was suffering from a terrible pain in my back and when I was up and around the house I had to walk with my body bent nearly double. If you had placed a thousand dollars above my head I could not straighten up to get it.

Shortly after that my husband who was a coal miner, was suffering from kidney trouble and could not work. I sent for some of Dr. Kilmer's Swamp-foot. He was in a terrible condition but as the doctors had not taken me any relief, I had more faith in Swamp-foot and it was felt around for it. It did the work and after taking a few bottles he was completely cured.

I daily recommended the use of Swamp-foot to my friends and neighbors.

Sincerely yours,

MRS. J. H. NORDQUIST, Gaston, Penna.

Sworn and subscribed to before me this 14th day of May, 1912.

WRIGHT-METZLER CO.

Has The Lowest-In-Town Prices On

RENGO BELT CORSETS

The Model selling for \$3.248 —And the Model priced \$2 elsewhere, is here at 1.48

The strength of the Wright-Metzler organization stands for buying and selling advantages that only large stores can command. The two stores of Wright-Metzler Company are the biggest distributors of high-class merchandise in this and the adjoining counties. Being able to dispose of the most goods, we buy most; and by buying big, we can get the lowest prices a thing sells for at first hand. These Rengo Belt Corsets illustrate the advantage of big buying; and the advantage of lower retail prices to Wright-Metzler patrons.

The Corsets are quality-perfect, in the newest models and desirable. The corset we sell at 2.48 is the same model priced \$3 at other stores. Buying it here you save exactly 52 cents, and a like amount on the \$2 corset.

The Rengo Belt Corset here at 2.48 is of coutil, lace and ribbon-trimmed at the top. It is for giving a stylish figure to stout wearers and the sizes are 23 to 36. The model is medium low bust, low under the arms and long hip. Stout elastic bands front and back regulate the pressure and add to the comfort and purpose of this figure-building device. This model has six rubber grip supporters.

The 1.48 corset is a lighter weight model and designed for slender and medium figures. It is of coutil, lace and ribbon-

trimmed; long of hip and medium low. The elastic band across the back keeps the corset in place and prevents "crawling upward"—as some others do. Four supporters on this model.

We employ an experienced corsetiere who will render you every service in her power. She is competent to suggest the model and corset best suited to your figure—or what you want your figure to be; and she will fit the corset of your choice, without additional charge.

Besides the Rengo Corsets, we have front-laced Gossards for every figure. The prices are \$2 to \$10. American Lady Corsets at \$1 to \$3. Redfern Corsets \$3 to \$10; Niris Corsets \$1 to \$3 and La Resist and D. H. & C. reducing Corsets, 1.50 and \$3. Second floor.
